Falling into Place

Hey Look!

Check out the bottom of your right hand pages! Do you see that little picture? Well start on page 3 and flip the pages. You'll see the movement of the pictures and it'll look like a mini-motion picture. Pretty cool huh?

The yearbook came up with the idea of flipping the pages to make a mini-movie from another school's yearbook. We knew Regina would be able to do it so we brainstormed the pictures we wanted. We chose a flying stork delivering a baby who gradually turns into a graduate. We liked this because it symbolizes our lives falling into place. Regina had to draw about 75 pictures of the flip art. Thanks, Regina, and we hope you all enjoy!

The 2001 yearbook staff is very excited and enthusiastic about your yearbook.

All but one of the yearbook's members are seniors and we are all really involved in the

making and creating of a dynamic yearbook. We wanted this yearbook to be very special and memorable for us and the rest of the school. We knew that a theme was needed for the yearbook and it had to be catchy, creative and also describe our class and the changes happening to each and every one of us. We hope that everyone enjoys this yearbook and has good luck "falling into place" no matter where you are or what you do.

A Night Under the Stars

Prom 2000 was a night that the class of 2001 will never forget. It started with the hard work of the Prom Committee that began with 20 and ended with 5. We all had a vision in our heads of our perfect prom night. We started with a runway and some lights and fabric and ended with an elaborate white walkway with lights sparkling from top to bottom. The ceiling was lined like a beautiful starry night. The decorating of prom definitely brought the class together, as P.J. strung up wire for hours on end, Kyle ran around moving things in and moving things out, Schlane and I told people what needed to be done and Katy and Jessie created a beautiful trellis with flowers and lights that will make people remember our prom and try to outdo us for years to come.

When the night of prom finally came we walked into the gym and were awestruck at what we all had created together. The decorations were then lost at the sight of our classmates dressed to impress and looking their best. Girls worried about sweat marks and their hair and guys just wor-

ried about getting their jackets off. The quiet guy who had a locker next to you suddenly looked like the "hottie" you've always been looking for, and the girl that always wore her hair in a ponytail and had matching wind pants for every day of the week suddenly looked to the guys like the chicks on Dawson's Creek. Everyone looked magnificent.

For me prom was an especially wonderful night. Being crowned prom queen was one of the most special moments that I've had and it only topped off the already incredible night. I felt like a princess when I put my dress on and became a queen on that night. I hope that everybody had as much fun as I did and will hold the memory of our junior prom in their hearts for as long as I do.

Sarah Johnson

"It was fun!" said Mike Wells. Mike, I think we all feel the same way. This was a night that will live on for our class for years!!

"It was a unifying experience. I had fun, it was thrilling and cool too," said Anna Stratton.

I wrote your name on my hand but it washed away the next day. I wrote your name on a piece of paper, but I accidentally threw it away. So, I wrote your name in my heart, and forever it will stay." Thanks to Oxford and the Class of 2001 for 18 wonderful years. **Future Ambitions:** Be successful... hopefully as an athletic trainer for a DI athletic program (a.k.a. taping ankles all my life). Be healthy, happy, and never lose track of the people and things I love.

Brandon Barrows

Nicknames: Braindead, Marlin Brando, Brando Baby (thanks Sarah) **Fondest Memories:** Going to Hodge's for lunch over the summer, working on trucks with Hodges and Northups, farm and truck shows for FFA, sausage day, 3rd period Ag/Tech class, working on the soccer fields on Rt. 12 through BOCES. **Lasting Impression:** I spent all of school complaining about how much I hated it until now. I realize how much I'm going to miss it and my friends. **Ambitions:** become a heavy equipment operator and a welder.

Travis Kane Beebe

Nicknames: Jarvis, Trout, and sometimes Trevor! **Fondest Memories:** I barely remember back that far but I know I had many fun times back in Pumpkin Shell with Trevor, when we were 3yrs old. I got to know each principal really well since the primary school. I had a lot of fun in 6th grade goofing off and getting in trouble with Mr. Runion. Between 6th grade and 9th Grade I don't remember anything happening that was too much fun, but maybe I just forgot. "Wait did I say something dumb?" That one night Brian and I took a trip to Quick Way at 4:00 in the morning. All those cool party's Lenny would have at his house. I remember my first Woodstock experience with Lenny, Mark, and Joan. I had the most fun I think at the first festival I went to with Gina, June, and Corey. All those times camping with 10 people and one tent. I remember going nuts at both Nick Stocks. That time at Harvest Moon was just crazy, you all have to agree with me, those who went anyway. Well it's 2:50 and I am in school now and want to leave, so I am done with this. Have a wonderful day! I know I am forgetting a lot but, that's what I do best!

Justin Boberg

Nickname: Bobo **Fondest Memories:** Junior Prom was my favorite memory. I think that the prom would have been just another dance if I wasn't the prom king. One thing I have to say is we need a good DJ for one of our dances this year. This year was my first, in six years for soccer. For someone that hasn't played for a while I would say I was good. I did play the game more like it was football, but my team

never had any complaints. Also my one pride and joy memory is my girlfriend Diana that I have been dating for two year and a few months. I hope that we will go to Florida this summer, so we can have the summer of a lifetime together. Love you Hun. **Lasting Impression:** For the students that are now in the high school keep your grades up now so you don't have to worry about them when you are a junior. I had this problem so if you could keep your grades up now you will have no problems in the future. Good luck to you all and keep it up Jessica Brown. I would also like you all to remember me by my curly hair. **Future Ambitions:** Go to college and study accounting and business management, and now I'm thinking of being a stockbroker also.

Katherine Brantley

Nicknames: Katie, Kate **Fondest Memories:** mmm... pork, Fork! skating with Crystal; being pushed into the pool every summer by Rob; making sure Del has enough room in the car; trying to play horseshoes at Crystal's 17th birthday party; carrying Rob on my back in Canada; "There's a time and a place for everything, but not on a school trip"—right Rob?; going to the "Drive In" with Kim and Diana; Crusin' with the Edicks; Homecoming at Tonya's; discovering the "Extra Fishy" super bass on Diana's car stereo; on the way home from Rock'n Bowl with Justin, Craig, and Diana—"There's a deer!", "No Diana, that's a mailbox."; trying to embarrass my friends when we're in public with help from Mike; deciding to go to the prom a week before, and then finding a date the DAY before (thanks Craig); spending last summer with Kim; my 15th and 16th birthday parties; dancing with Kim during practice and at Diana's; trying to teach Kim how to dance; being mistaken as Mike's sister time and time again; refusing to sit with Crystal on the way back from the D.C. trip—I still have no idea why I was so mad; Tonya's pool parties; getting in trouble with Lisa in Jr. High; buying pickles with Mike; fooling around during Winterguard practice; making up dances to the songs in chorus with Crystal; being constantly harassed by Luke during chorus; Championship overnights; seeing GGD & T with Kim; listening to PJ talk about his "club"; being gazelle with Ashley and Jolene; trying to convince Kelly that I don't hate her—"cause I don't; and finally, just being a dork with all my friends whenever time permits. **Lasting Impression:** I hope my friends remember me for always being able to make them laugh, but also for being a good listener and trying to help whenever they asked. **Future Ambitions:** Be happy no matter where life takes me.

Brian Cobb

Nickname: Harold **Lasting Impression:** Many, many men can't see the open road... but why are we all lost in conceptual vision? For it is not the image of one's presence that should have any influence toward our judgment. Undermine society and look deep, past the conditioned mind and come to truth, a long lost luxury that lives within all. Thus comes a person's ability to coexist with fellow humans

through the means of team work. When, in hand, you have the capability to share with others, you'll find a new positive state of mind. With an elusive smile upon your face the world will be at your mercy. Processing positive energy will only bring such to you. As long as you have the knowledge of self you can defy all odds. The world is as simple as the mindset you bring to it. . . let me ask you one question: do you remember laughter? **Future Ambitions:** to find true love and share it with all, and along the way maybe lend a hand or two. **Fondest Memories:** oh so many festivals, the Wallers, Woodstock, weekend after weekend at Lenny's, b-town, c.c. road with Mel, Corey and Amanda, near death ridin' with Gina and June, the early years at the Weiss', half days at my house, stinky, camping with Pete, drum circles, camping every weekend at the water falls, excursion to John's long weekend at my house, journey with Mel and Jan, prom night, eating chips at Amy's, art class, Bill's barn, Halloween Price Chopper dude, Lake George with Amanda and Jill, the neighbors up the street, coffee every Wednesday, football games with George, wandering the town with Corey, intense days with Rich, exciting chats with Jessy, playing ball with Mike, jumping across the road with Travis, going to mall with Corey and Ryan, frisbee with June and Gina, Ithaca, crippy, road trips, Greene Boname Park "ya know what I really want to do," summer in Florida, Quikway with Travis, New Year's Eve, "Blue"

Other than, I'd like to thank Nicole, Courtney, Sham and Amanda for always being there for me. I've been a real learning experience and I've made memories, working in a library these past two years it's been a real joy. One of my most memorable experiences was being interviewed by XY Television from Leeds in Great Britain via Web Cam. There were many people that helped make that interview possible. I'd like to extend special thank you to Ed

Dalladay. There are a lot of other memories worth mentioning but those are the ones that need no introduction. Once again it's been a very memorable experience here at the high school. Thank You. **Lasting Impression:** When you think of me it's just see someone who was a "smart kid." Yes, I was good academically for the most part but my academics aren't what I am as a person. Hercules Fondest Memories: On playground in first grade Mrs Marshman told us not to bring food onto the playground but... I did and she caught me. She told me to give it to her but I had the WHOLE thing in my mouth, but then she held out her hand and said give it to me so I spit it into her hand. The rest was grades 2-11 and nothing really happened then. But in my Junior year I met my girlfriend Eliza Dungey. I asked her to be the Junior Prom with me.

When we got there everyone questioned if it was really me. Duh Guys! Something I will always remember is our awesome football team we went to get the job done and most of the time we did!!!! **GOOD LUCK** to everyone! Also I will always remember hanging with the guys. The best thing that I will remember is that on September 5, 2000 the day before school started I asked Eliza to marry me and that was the best when she told me yes. **Lasting Impression:** Ha Ha I graduated even though so many teachers thought otherwise, I didn't let them beat me and I didn't let and never will let anyone beat me no matter what happens because "I AM THE MAN". **Future Ambitions:** To live in the Alaskan mountains with my wolves and wife. I don't do things because I should, or to be good, or to make the world a better place out of some abstract moral responsibility, I live my life the way I do because I want to. Maintaining a smile and doing good deeds certainly helps out the world, but it most directly helps ourselves. It is the most hedonistic thing I can do. Hopefully I'm remembered for my open mindedness, yellow hair, classy style, artistic ability, and a wink for the underdog. Life's trials may be hard to bear, but patience can outlive them. Scott Michael Cluff

Our son, Scott Michael Cluff, would have graduated this year from the Oxford Academy. Many students and teachers knew him well. Others didn't know him at all, but may have heard of the catastrophe of his death on August 18 of 1995.

He only had 13 years of life, then illness took him from us. Most of his life was spent in Oxford, attending school at the Oxford Academy. These years brought him happiness. He had many friends, and many teachers knew him well. We thank you all for contributing to his happiness, and for passing on the knowledge that he learned every day of his life from other children, teachers and family members. He was a good child, and although he didn't even have time to really think seriously about what he wanted to do in the future, we know he would have been a son to be proud of.

He has two brothers, Brandon (age 6) and Matthew (age 3). Brandon only knew him for just under 2 years and Matthew never met him. Very few memories were shared by Brandon, but he remembers the love Scott showed him. There are also memories for both brothers through stories told by friends and relatives, and through memorabilia such as this yearbook. They are very proud of their brother. They know he was a fine young man, and they hope to show all of the beauties of the world that Scott missed through their own eyes. They and we miss him dearly, every second of our lives. For us, had it not been for his beautiful brothers, life would be unbearable.

You too will be parents someday. Grow with good values, resist the bad. Teach your children the good. Raise them well, love them, cherish them. They are not to be taken for granted. Good luck with all you do, now and in the future. Think of Scott when you look back at the good times you spent at Oxford Academy.

Class of 2003 has great unity

This year it's great not being the youngest and finally getting the respect we deserve! If we had to use one word to describe the Class of 2003, it would be UNITY. Everyone volunteers and cooperates, and there is a real sense of kinship among all of us. We continue to work hard together, and our fundraisers have been phenomenal. In the fall we all painted day and night on our great float, "Survivors"~~~and we'll never forget Dan's "bucktooth theory." For our future, we look forward to good times with great friends and also to winning Spirit Week 2001 and surpassing the greatness of last year's amazing poster, dancing ballerinas and singing Munchkins from Oz.

Freshman class experiences many changes in high school

This year our freshman class has experienced a great deal more than we thought would happen with coming to the high school. We have learned so much about ourselves, our friends, and our differences. Some of us have joined new and different sports, made and hung out with different friends and people, and taken in all the new experiences, feelings, attitudes, and styles we

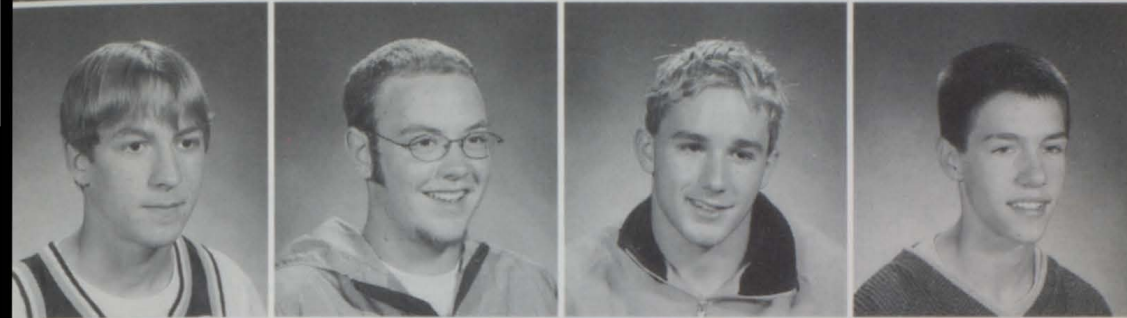

have adopted this year. Our president now, Nate Ford did not start out in the position of our class president. He took the responsibility of president when Brianne Chapman, our former president, moved to another school. But I think the most that we have realized is how different we all are as we start to form friendships and relationships that may last a life time.

Mr. Abbott retired last July after teaching 28 years at Oxford. He graduated in 1961 from Yankton College in South Dakota and landed a job at Henninger HS in Syracuse. The next year, Oxford had a PE/football opening which he was chosen to fill. His years at Oxford were filled with memories. He loved coaching football because he could observe the students in a non-classroom setting. There were many different personalities and social classes, but they got along and worked together. Some stand-out memories were his first undefeated football season in 1979 and two back-to-back undefeated seasons in 1981 and 1982. His only regret in retiring early was not finishing the year with this senior class, but a few rounds of golf wearing a t-shirt in January diminishes the regret.

Totally Engrossed in Music!

A lot of people see the band as a wonderful thing in our community, yet many do not know all the hard work and time that we, the students and conductors, put into it. If I have only learned one thing from Band it is that with a little hard work and dedication to not just music but anything, then it will happen. This is one thing I am going to miss when I leave this school.

We are not just a bunch of students, we are a family. With Band Moms and Band Dads, the squad leaders in marching band are the older wiser brothers and sisters.

For those of us who are totally engrossed in our music every summer we head off to the Oxford Summer Music Camp. That is another thing I will miss, just going to that camp. I made so many friends and met teachers who are just as wild about music as I am. There is no feeling like sitting at a dinner table after a day of camp and listening to the stories and jokes all the teachers have to tell us counselors.

I have so many memories and have made so many new friends that I really truly feel that the band as a whole is like a family. Thank you all for giving me so many good memories

Peer Mediation

Front Row: A. Gates, K. Carey, K. Bates, S. Boyer, T. Kelsey, D. Loomis Back Row: D. Nightengale, M. Dempsey, A. Otero

Here the "active" peer mediators are brainstorming ideas to practice keeping their skills current.

Sam shows us one of the many posters which the peer mediators made to put up around the school to encourage students to use mediation to help solve conflicts with their peers.

Peer Mediation is a student-centered program with the sole purpose of helping students resolve conflict in a non-violent manner. Student peer mediators have participated in a training program that teaches them skills needed to help students resolve conflicts. Through a process called "mediation", the mediators help fellow students resolve conflicts before they progress into bigger issues.

The process of peer mediation begins with a referral. Teachers, students, or the principal may refer students in conflict for mediation. If the students in conflict agree to mediate, the peer mediators step in to guide the process. The task of the mediators is to help the disputants discover the source of the problem and develop a plan or agreement to resolve the conflict.

Peer mediation requires time and commitment on the part of the mediators. Their efforts are greatly appreciated.

Ms. Collier is the advisor of the peer mediators.

Friends Are Like Angels

Our friends are like angels,
Who brighten our days,
In all kinds of wonderful,
Magical ways-
Their thoughtfulness comes as a
Gift from above,
And we feel we're surrounded by
Warm, caring love...
Like an upside-down rainbow.
Their smiles bring the sun,
And they fill ho-hum moments
With laughter and fun.
Friends are like angels
Without any wings,
Blessing our lives with the most
Precious things.

You were our friend and now our angel.
We miss You!!
Ashley

You are still so loved and will never be forgotten. You were always one we could talk to.
Love, Eliza

You were always there for us and we all miss you.
Crystal

I will miss you at the soccer games telling me to continue trying. Even though you won't be there physically, I know your spirit will be.
Love, J.J. Shapiro

Wish You were here to help us with our S.A.D.D. programs. Love you and miss you very much.

The Drama Club Presents: Fiddler On The Roof

"Fiddler on the Roof" is the story of Tevye, a poor milkman, and his attempts to preserve the traditions of his family and culture. Tevye is troubled by his daughters who wish to break tradition and marry for love. Meanwhile, the cast struggles with trying to "become their characters": not a simple task, considering the vast cultural differences. The play, set in 1905, takes place in Anatevka, a small Jewish village in Russia. "Fiddler on the Roof" was written by Joseph Stein in 1964.

Another year is in the books. Although our record doesn't show it, we had a very productive year. After breaking in our new coach, Mr. Paden, we got down to business and started achieving positive outcomes. When confronted with a challenge we gave it our all, playing with our hearts. But sometimes the foot misled the ball, or the head directed the ball into our goal (Justin Tefft). It's been an experience playing with the year's seniors and it's sad to see them go.

This was not one of the better soccer years that I've seen, but it wasn't a total waste. We won a few, and most did their best, but we still got beaten down. Despite our losses, this is one of the most aggressive series of games I've ever seen. We tried and we can only go up from here.

JESSIE CHAMPLIN

Out of the 5 years of varsity soccer I have played, this year was by far the greatest. We had quite a few new freshmen this year that added new skills and a few laughs to the team. We also had a lot of returning sophomores and juniors with experience that helped to bring the team together. We may not have won a lot of games, but after each game we always improved as both individuals and as a team. It all paid off in the end when we stomped Walton 4-1. I'll never forget the skills and lessons I've learned both from my coaches and teammates. There's a lot to be said for Oxford Girls' Soccer. Although it is not shown on the scoreboard, it is deeply embedded in the heart of every player. I'll miss you guys!

Over here!

Nicole Soyke is ready to get the ball and bring it into the goal.

Hey you! Get Back here!

Danielle Nightengale seems determined not to let that ball get into Unatego's hands. Unfortunately as the scoreboard says, she didn't catch her. Next year though, she will be faster, and she won't let it get away again.

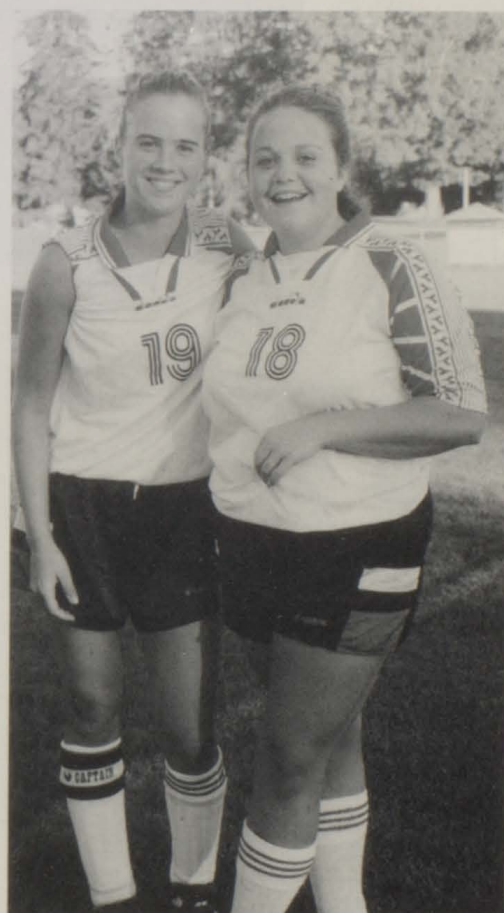

Here I Come

Chasity Simpson tries to find someone to pass to.

Eye on the ball Amanda McShane brings the ball upfield, maybe even for a goal.

Say goodbye to the seniors Stacey Dean and Jesse Champlin, it's time to say goodbye. Hopefully the team will be able to bounce back next year without you.

This year's season is one that I think nobody on the team will forget. We had really high expectations for this year and I don't think we let anybody down. Everybody gave it their all and left nothing behind. Even though we lost to the State Champions (Dolgeville 25-20), it was still one of the best seasons by an Oxford team. To all of the seniors we had a lot of great memories over the years while playing Football. I wouldn't trade them for anything. It was fun playing with such a great group of guys. I wish next year's team the best of luck. Keep working hard!

"Look at my ups" Mike Chrystie attempts to catch a pass in the second quarter of the regional championship game.

"I'm all right coach, I can still play." Eric Northup had to leave the game on a stretcher while his teammate, Mike Sayles, and his mother looked over him.

"Pass interference" Nate Ford tries to catch a ball while being tackled.

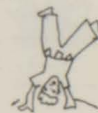

"Is it good?" Mike Chrystie kicks a PAT field goal in the third quarter at the Dome. Mike broke records in field goal kicking and in rushing yards.

"Emotionally defeated" Jason Place, like other players on the varsity team, wept openly at their last game against Dolgeville (the State Champions.)

"TOUCHDOWN!" Kyle Sylstra plows through a defender while Brandon Yarnes makes a block. Kyle had two touchdowns in the Dome.

This field hockey season caused a lot of emotions. From excitement to disappointment the team always stuck together. At the beginning of the season we defeated Marathon and our long-time rival Greene to win the Oxford Tournament (the first time Oxford has won its tournament.) We went on to remain undefeated in our league and win our division. At Colgate University we murdered the Marauders to capture the Section IV Class Championship. A disappointing loss in sudden death strokes to Clinton ended our season and our hopes of playing for the state championship. The team played well the last game and we left it on the field. It has been a great season. Our overall record was 18-2, we were the first team since 1994 to make it to regionals, and we beat Greene. The team overcame differences and worked towards a common goal. We had a blast doing Chinese fire drills and blaring "Faith." This season was awesome and I will remember it always.

...Ask Not What Your Country Can Do For You, Ask what You Can Do For Your Country...

Oxford's Winterguard members manipulate 10-foot PVC pipes with 7 feet of red, white and blue material as the final touch to their patriotic show this year.

The Guard is introducing this year's show with yellow and gold silks to show their technique and skills.

Dance, Katie, dance! Katie Brantley is in the camera as she is great doing poses.

Mike Wells does his solo while JFK is speaking and five white "stars" dance around him.

Five of the rifles raise an American flag honoring the soldiers who fought at Iwo Jima.

Aja, Jolene and Diana are three of five girls who layer a pose in the beginning of the show, accenting Mike's solo.

Cathy Heim shows her skills with the silk while Jolene Brown does the same with her rifle. The movement is so quick it appears as a blur.

Three lines are formed building interest in the beginning as the girls pledge during a chime showing body technique and expression.

Seniors Say...

I have performed in Guard for 4 years. It is an awesome activity to be in, and a great confidence builder. I have formed great relationships, and I have learned the value of respecting others and being respected by them. I hope to continue performing in future Guards in future years, but till then I thank and appreciate my Guard family.

Aja Otero

I feel that Winterguard is one of the greatest learning experiences this school has to offer to students. A person can learn so much about life and people. I have truly enjoyed the experience of being in Guard and the people I have met along the way. My only regret is that I joined in 8th grade and not 7th.

Katie Brantley

Winterguard is fun. This is my 3rd year in performing. I was in setup crew for two years before I joined the Guard. Memories from Guard will last me a lifetime. I will miss my Guard "sistas" a lot.

Mike Wells

I've been in WinterGuard for 6 years and they have been the best years of my life yet. I have learned skills involving Guard stuff and I have also learned a lot about life experiences. The memories will never be forgotten and I know I will miss all of you so much.

Kim Potter

Winterguard has been a huge part of my life for 6 years. The experiences and memories from Guard that I have gained are something that no one will ever take from me. I have been a soloist in Guard for 4 years. I am truly going to miss my Winterguard family.

As in the past years, we had a few get-it-all-out sessions. We were a great team, and we did well. We'd like to thank Mrs. Markham for keeping score, Ms.DeJager for doing the scoreboard, and a big thanks to Ms.Harris and Mr.Barrows. They were great coaches and will take the team far next year. Thanks to all the fans for supporting us too. Good Luck to the team next year, remember to stay positive and keep the attitudes off the court.

Undefeated in duals

The Oxford Wrestling team had a great season this year ending the year ranked 5th in the state, a step down from our highest ranking, 4th. We finished the season undefeated in 13 dual meets. We took second in the Clyde Cole, first in the Jim Wilson Duals, third in the Sherburne Tournament, third in the Watkins Glen Invitational, third in the Shenendoah Tournament, second in the Susquehanna League Tournament, second in Class D, and third in section 4. This was our best season by

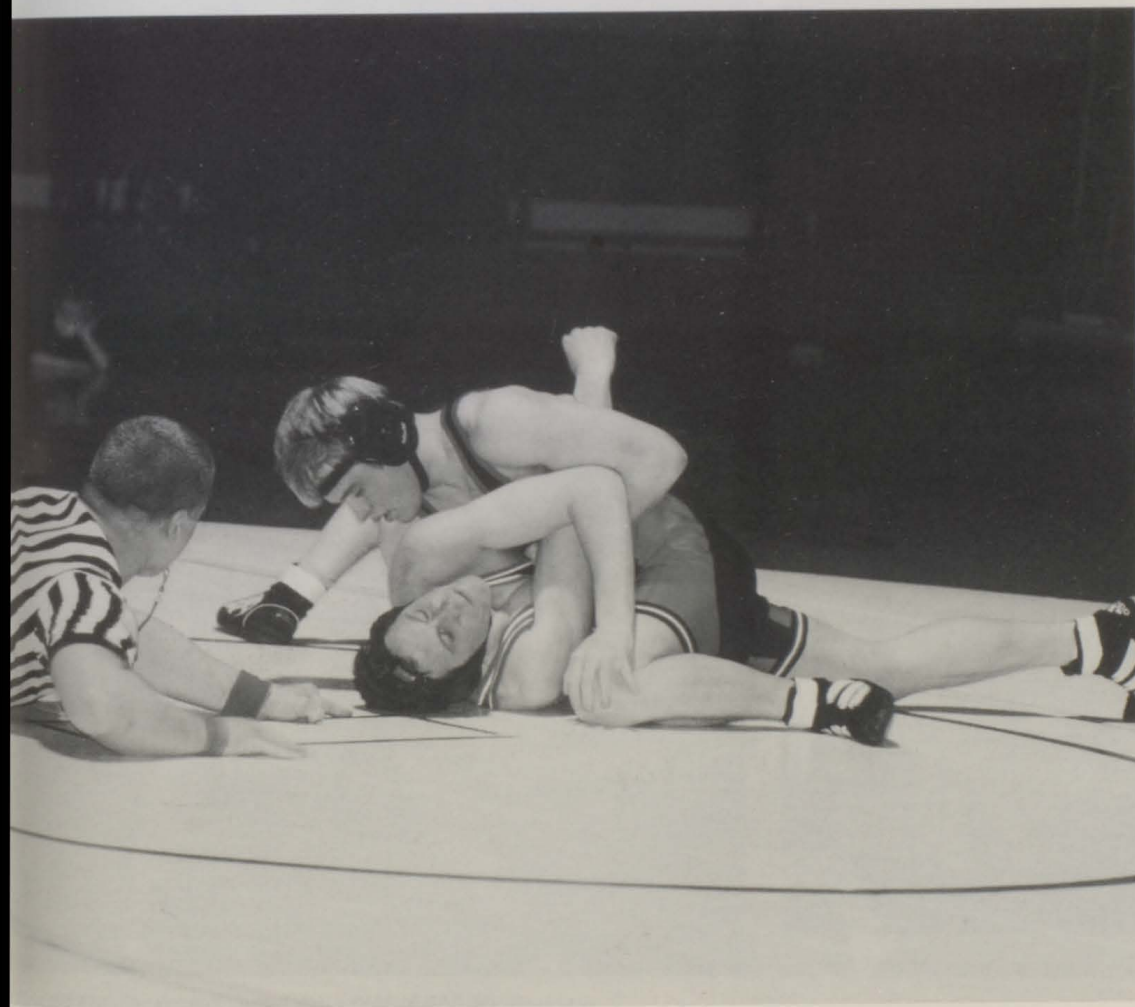

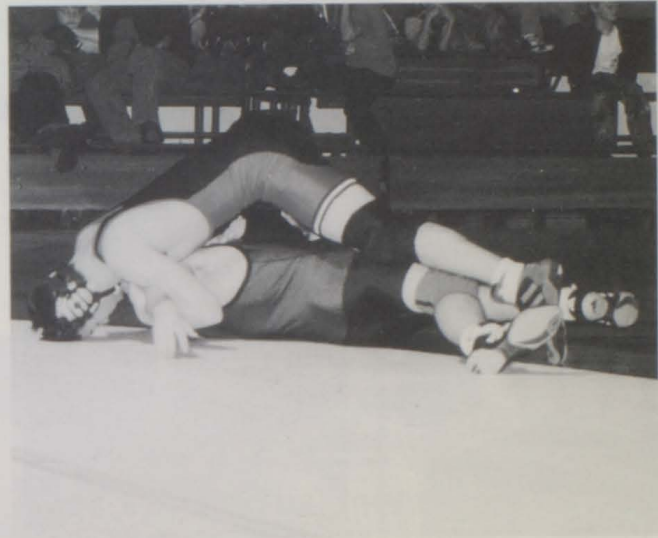

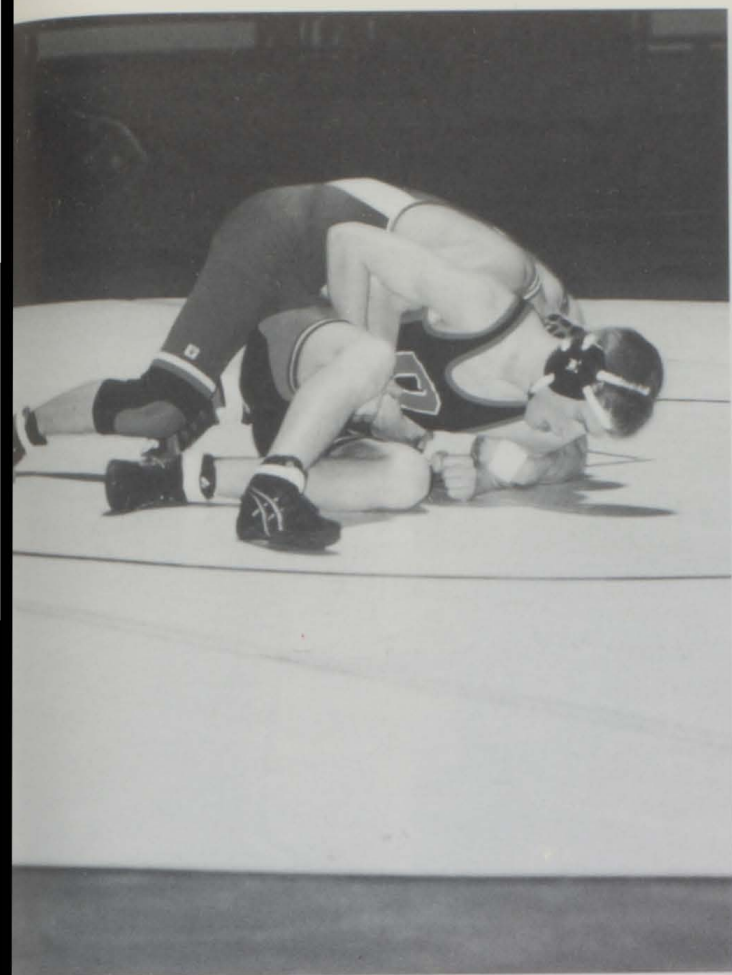

far in many years. The team really came together this year and worked hard, not only during the season but also in the off-season. The loss of Chris Weiss and Matt Livingston to graduation is going to hurt us next year. We should still be strong though with four returning sectional finalists and two place winners! This should help our team be ranked high in the state again this upcoming year. Hard work and dedication make this season one to remember for Oxford. Kyle Muzzy

This year the girls' basketball team experienced a great season. We captured both the John McCarthy Tournament and the PennySaver Tournament titles. Lots of laughs during softball 2000

This softball season was a lot of fun. We actually got to practice outside the first day which was a big plus. Softball season is always the most liberating season because we finally get to go outside (even with 3 feet of mud on third base and in left field). The team was pretty successful even though our record was only 10-8. We went to sectionals and played our best, shocking the other team. Even though we didn't come out on top, our team unity is probably at its strongest and the laughter never stops during this season. Good luck next year ladies.

Young talent

A season to remember

The 2000 baseball season was one to remember. After losing most of its players to the college level, the team was very young and talented. After putting some differences aside, the team finally managed to win a few games and play like a team. Terry Finch and Jim deHaan did the best job possible in keeping this young team in good spirits. Even though

we weren't able to win the division title like the two previous teams that I played on, this team was one that was in every game. If we had caught a few breaks here and there, we might have been able to win the division too. This team was much better than we look on paper and I am proud to have been a part of it.

Academic "O"

An honorary Academic "O" was presented to Mrs. Russell, recently retired after many years in the Attendance Office. During her tenure at Oxford Academy, she and Awards were ready students. She also prepared scripts for countless students as they prepared for higher education and offered encouragement and support to even more. She will be dearly missed.

ter having worked High School Guidance her tenure at Oxford Academy, she and Awards were ready students. She also prepared scripts for countless students as they prepared for higher education and offered encouragement and support to even more. She will be dearly missed.

The Academic "O" is an award presented to students for outstanding academic achievement. In order to be eligible to receive this award, students must have earned a minimum of five academic credits during the previous school year and maintained an average of at least 85. Students receive a chenille letter when they earn their first Academic "O" and receive a gold bar for subsequent years.

Mr. Stevens and Mr. Hine accept the "America Goes Back To School, 2000" proclamation, presented by Colby Cooper.

The guest speaker for the Awards Program was Colby J. Cooper, 1994 Oxford graduate. Colby is also a 1999 graduate of Bucknell University and currently serves as a member of the National Security Council in the White House. Colby presented the school with a copy of the "America Goes Back to School, 2000" proclamation, which was personally signed by President Clinton. In the proclamation, the President encourages parents, schools, communities, state leaders, and business, civic, and religious organizations to support high academic standards as well as family and community involvement to insure a quality education for every child. The President reminds us that we each have a role to play in providing our nation's students with schools, teachers, and standards they need to achieve their dreams and succeed in the new century. Colby also presented the high school with a copy of the book *The White House: An Historic Guide*. This certainly will be used and enjoyed by many students and staff members.

THIS IS SO INTERESTING! Danielle Nightengale listens closely to what Colby Cooper has to say.

Boys' & Girls' State

Boys' State was hard, but also fun. It was an exciting experience for Jason, Nolan, and I. We made lots of new friends, and new memories. While we were not having fun we learned a lot about our government, what it means, how it works and how we can someday play a role in it if we so choose.

-- Luke Williams

Girls' State this year was held at Russell Sage College in Troy. I would have to say that Girls' State was a great experience. It is a good chance to get out and meet new people and learn about the government. Throughout the whole week there were guest speakers and a lot of hands-on activities. We learned the concept of our government and how hard it was to pass bills. Everyone had different jobs as we tried to get our make-believe states to work. As the week came to an end there was a closing ceremony and we said good-bye to a week nobody would ever forget!

-- Katy Carey

RYLA

Jessie Champlin & Brooke Aldrich

This past summer we spent a week with many area seniors at RYLA, a youth leadership conference held at Hartwick College. What an experience! In just one week you met more than 100 new friends, all of which are the most amazing people you'll ever meet, most of which you'll still be in contact with years later. We worked together in tons of different fun problem-solving situations, listened to excellent speakers and everyone shared their ideas. At first this whole public speaking thing might have seemed intimidating, but that feeling went away in a matter of minutes because of the easy-going atmosphere. Big favorites on campus were sandpit volleyball, swimming, kickboxing and frisbee. At the end of the week, you found yourself not wanting to leave, wishing you had taken more pictures, and getting together for one last pizza in the lounge. It was an all-around great (life changing perhaps) experience and we hope you don't pass up this wonderful opportunity.

Operation Enterprise

Matt Livingston

Operation Enterprise-Going to Berkley College in California was a lot of fun, yet it went so fast. During the time I was there I learned all about management and how to deal with problems that might come up in a work environment. They told us by the end of the week we would know 75% more than managers know in the country. (I think we do know more than they do, NOW!)

Missy Nelson

The Phone-A-Thon was a great experience. Just knowing that we were helping someone else out made us feel good.

The American Legion Oratorical Contest

For the last three years I have competed in the American Legion Oratorical Contest. This year I advanced all the way to "Zone" which is the fourth level in the series of competitions. To compete in this contest students have to write and give an eight to ten minute speech on some aspect of the Constitution.

This contest is a great experience for everyone. Besides improving your knowledge of American history and making you more comfortable with public speaking, it's also a great way to meet new people and make new friends. Plus there are money prizes at each level.

I hope you all come and compete against me next year and join the fun.

Thanks,
Courtney Potts

Exchange Students

Kelly Boise

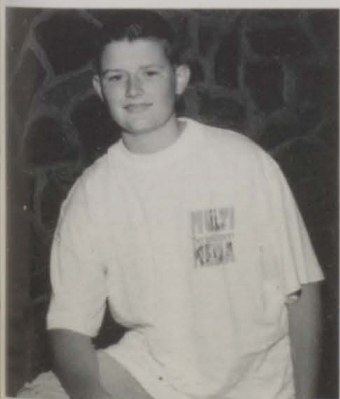

Things here are great! I just got back from my first trip with the other exchange students in my district. Not everyone was able to go, but there were 31 of us that did. It was so great to meet all of them, I know I have made some friends for life! My first host family has been great. . . I will be changing houses sometime after Christmas. I've already met my next two families and they are great too. In all I have six host brothers and three host sisters. It's strange to suddenly have siblings, but it's nice. The school here is a lot different than yours. I think it's more difficult too, and not just because of the Spanish. The teachers ask a lot more of you, but also don't seem to care about the students as much as in Oxford. Some do, but definitely not the majority. The school seems like a small version of college, which is good for me. Hopefully I'll be a little better prepared next year. Being here has also been hard at times. I really miss my friends and family so much. Now it's getting into the holidays which makes it even harder. . . but all in all I'm so glad that I made the decision to come. This is a great experience and I've met so many wonderful people. If you're interested in being an exchange student, you should definitely try it. It will be one year you will never forget.

Sarah Locke

Hello everyone, or should I say, Bonjour Tout le monde. Since the beginning of September I have been living in Eastern France in a town called Pontarlier. Throughout the year I will have three host families, each different, with a different way of life. Unfortunately, I have to attend school regularly, but because of this I have made many good friends. The school schedule is different. For one thing, I have to go to school on Saturday. In the beginning of the year I was always going into the wrong classrooms because the schedule is different every day, but now I have learned my schedule and those embarrassing days are over. I have been lucky enough to visit many great parts of France. There are around 95 different departments in France and no two are alike. Each region has its own form of French, its own climate and most importantly its own wine and cheese. Which brings me to one of my favorite topics, food. The food is great and within my first week in France, I realized that the cuisine is one of the most important things to the French. I've had more 5 course meals in the last 4 months than in my entire life. I've also been lucky enough to visit many different countries in Europe, like Switzerland

and Germany. The simplicity of traveling from country to country is amazing. Unlike the States where you look at people's license plates to see what state they come from, here you check to see what country they come from. Anyway, I guess I should conclude this letter by saying that this has been the best experience of my life. I have learned so much and I'd be lying if I said that it wasn't worth it.

Albert Hennig

The first time I heard that I was accepted to go to the USA as a Rotary Exchange Student I was very excited. A few months later I had to pack all my stuff (that was a pain) and then we went to the airport. After a few hours wait I had to go on the plane. In the plane I met three other exchange students. We arrived first in Washington, DC then went on a smaller plane to go to Binghamton. We couldn't get our luggage because the plane was damaged. We had to run from place to place to ask for it but it was not enough time to get it so we missed the next plane. We waited 4 hours and then finally we got on another plane to Binghamton. From there I went to Oxford. I was up for more than 32 hours so I didn't see much of all the landscape. The next morning it was warm and sunny. It was strange to be in another surrounding with other people I never met before. But it wasn't very hard because the families were all very friendly to me. I want to thank all of them. The first thing we did was drive from Oxford to Norwich. I didn't think it was so small but I liked it because

it was different than home. I come from a city with 70,000 people and a very good infrastructure. I was also not used to having mountains around me but I was very pleased because I could ride my bike on the trails. A few days later I had to make up my schedule for school. I also signed up for the soccer team. I liked it very much to be on that team. After a few days school started. It was fun to go because it was all new and it was also very different. I was used to having a fixed schedule and having numbers as grades. I liked all courses and want to thank all teachers who taught me to understand the things I did wrong. I had very many good conversations with people here. They all asked me about Germany, how it is now and often about the Second World War. Many people also asked me about my town and my government.

Math & Science

A New Math Program and New Challenges

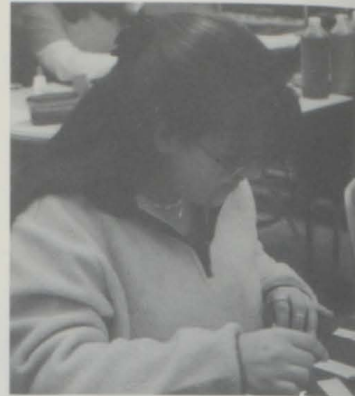

The high school math department will be implementing a lot of changes beginning in September 2001. The traditional Course I, II and III sequence will phase out over three years as we introduce the new Math A and Math B curricula...along with new textbooks, new Regents exams and new requirements for graduation!

Freshmen entering next year will be required to earn a minimum of 3 math credits as opposed to the 2 credits currently required. They must also take the Math A exam and pass with a 65 or better; the transitional 55 will no longer be in effect for the Class of 2005 and beyond.

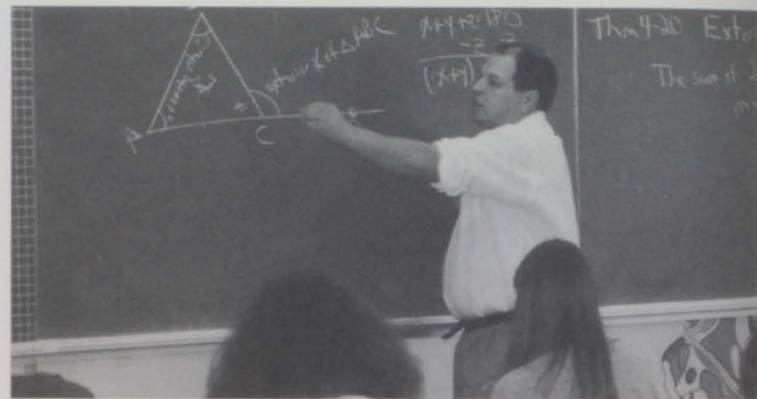

Students who then successfully complete the coursework and exam for Math B will receive an Advanced Designation on their diploma. Another major change at the Math B level will be the inclusion of graphing calculators--a requirement for the Math B exam.

The math content will remain basically the same--algebra, geometry and trigonometry. However, it will be packaged very differently and will require different teaching strategies to better match the new State assessments. Students will need additional practice responding to open-ended questions and communicating mathematically.

ENGLISH & LANGUAGES

This year in Spanish class besides reading, writing, listening and speaking, we sang along with Selena, Marc Anthony, Ricky Martin and Mana. We displayed our artistic and *linguistic* talents in the esqueletos project for *Dia de los Muertos*. Although we never left the classroom, we travelled to hispanic countries through

videos, legends, maps, and research. Viva espanol!

The French classes learned from several different teachers this year, and the quest for language teachers continues... We were fortunate enough to welcome back Mrs. Niederer from retirement to teach our regents class. Bonne chance, tout le monde! Mrs. Locke

The main goal of English class is to instill in the students an appreciation of literature and to teach them to express themselves through writing. This is done through the study of novels, short stories and plays. Attending plays is also a goal the English department would like to attain every semester. Seeing and hear-

ing Shakespeare is more important than reading his works. Mrs. Burcroff

We could write a book about your past 19 years, and we could fill lots of photo albums with pictures of you on family vacations, school activities and playing sports.

So, we will think of so many memorable times and remind you to NEVER LOOK BACK-- don't ever regret the past--and continue to stand up for yourself and the feelings of others, as you have always been a leader but at the same time know how to have fun and make people laugh.

You've worked hard to get to where you are today; next will be college and field hockey. We have admired your ambition--you've always had a job or two in high school and bought your own car and paid your own way.

We were so proud of you in the Empire State Games this summer, we won't ever forget your face up on the big screen at Mets Stadium, holding the Central Region Banner, and playing your heart out at B.U.

Lucky you to have several teachers in our district, like Mr. Rogers and Mrs. Hall, who helped you get through some difficult times in your life and school, and the encouragement of Mr. Curtis when you needed it most.

THERE'S SOMETHING ABOUT ...MISSY

There's something about MISSY...

Is it that SMILE?
Her LAUGHTER?
Those EYES?

Rewind the highlights
and you'll catch it
A SHINING STAR, with a gleam in her eye
All her CLASSIC MOVIE LINES
The grace of a "PRINCESS"
She lights up a room
The girl with the PATENTED Moves.

As a shy HONEYBEE, she first
graced the stage
To a PHENOM known by her
first name

MISSY

A sense of humor, so bright
DAUGHTER, SISTER
GRANDMA'S GIRL
TEAMMATE, TOMBOY
FRIEND so TRUE.

yes There's Something About MISSY....
Something very VERY SPECIAL indeed
THERE'S SOMETHING ABOUT MISSY....

Thanks for taking us along for the Ride

TO OUR MISS MISSY

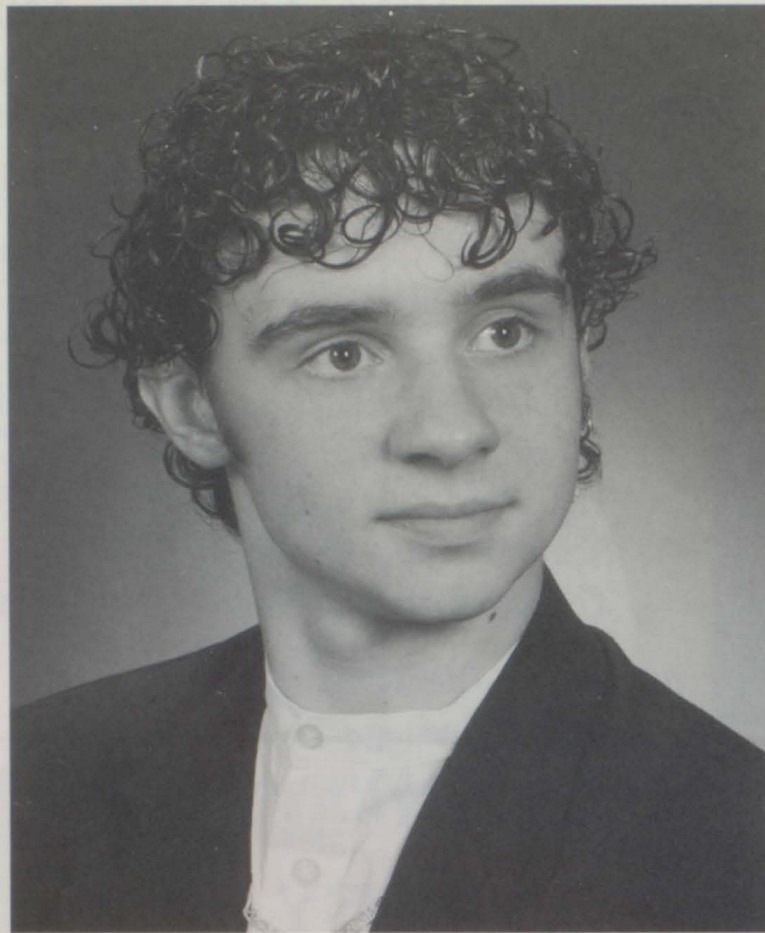

We wish you, We wish you
We wish you these wishes.
People to nourish and cherish
and love you.
Arms wide to embrace
your tomorrows
And pleasures that far far outweigh
your small sorrows.
The wisdom to find the right path
when you're lost in a maze
A lamp in the window to light your
way home in the haze.

We wish you, We wish you
A talent for living
Pursuing a dream
worth the doing.
A song in your soul, and
Someone to hear it.
A good heart to guide you
good friends beside you.
A snug roof above you
a strong self inside you
The courage to go where you know
you must go.

A long sunlit sail
on the bluest and smoothest of
bays.
The sweetest of nights
and the finest of days.

with all our
LOVE AND PRIDE,
YOUR FAMILY
