"Tomorrow Never Dies," reflects our hopes and dreams for the future. In order to fully realize these we must first honor our memories of the past and appreciate the present.

06-07 Gas Prices

"Our state is almost one of the highest in the country and people in North Carolina are paying \$2.52."

- Kristen Cronk, Class of 07'

"I believe that gas prices are far too high, due to the fact that the price of a barrel of oil is dropping."

-Megan Minihan, Class of 07

During the summer of 2006, gas prices soared to over \$3.00 a gallon. Now they are slowly going down. Most of Oxford's students feel that gas prices are higher here, in New York State, than in other parts of country. A lot of oil comes in from the Gulf of Mexico and those adjacent states seem to pay less per gallon. The economists have agreed that lower gas prices will be helpful, but are unlikely to make a substantial difference in the state's overall economy.

WAR in Iraq

"They had the wrong motives, and he began a war that was not in the best interest of his country." -Sarah Fitch Grade 11

"It served a purpose, but it would be nice of our soldiers could come home." - Mr. Moren

"Creates more problems than it will ever solve. "

"It should stop because too many innocent people are being killed."

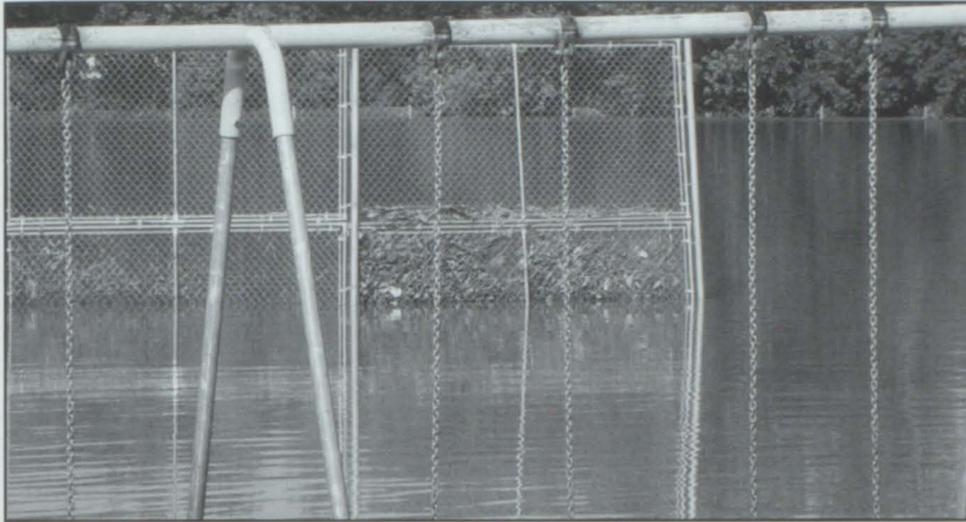

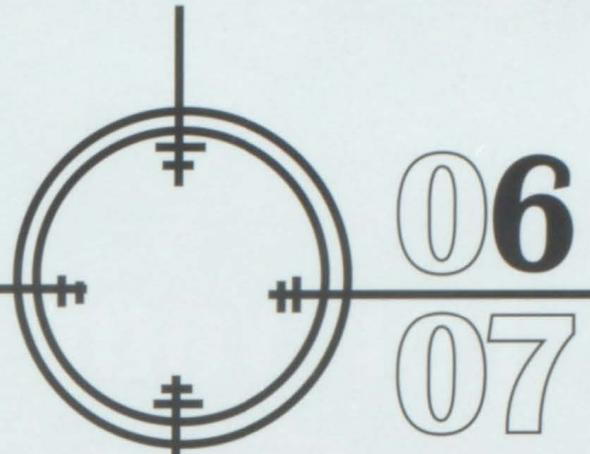

"It's gone on for way too long."

The Iraq war is one of the most influential events taking place in this day and age. On March 20th, 2003, the United States invaded Iraq. The invasion's purpose was to disarm Iraq, and remove its leader Saddam Hussein. There are differing views about a war that has been deemed controversial. There are those who believe that "it's gone on for way too long," and that "it should stop because many innocent people are being killed." There are those who believe that " US troops need our support." Others believe the war is just, that it needed to occur, and must now be finished.

June 2006

Flood of Century

In June our county as well as surrounding counties were affected, and some devastated by the flooding that occurred. Some of your fellow students experienced such things as "having no water or heat for a couple of days," to "being evacuated," from their homes. Some also tried to enjoy the situation they found themselves in. "Our well flooded so my friend and I made a waterslide out of tarps and our water pipe."

"I was evacuated from my house."

"I got stuck in the middle of nowhere for a week."

"My house flooded."

NYRI Powerlines

During the last year the New York Regional Interconnection (NYRI) proposed a plan for a power line to follow the railroad tracks through many small towns and villages throughout Chenango County. There have been many people who are up in arms about this controversial topic. Others seem to have no objections to NYRI's proposed plan. The local Assembly members and Senate members have raised funds to work against the power line project.

On October 3rd Governor Pataki signed a bill making eminent domain illegal for the NYRI to use during their project. This puts a huge obstacle in the way of their progress.

"Put it somewhere else"

"I am against it fully."

"It had better not happen"

"I don't think it will be a very logical thing to do"

The **W**orld Is

Our staff that retired at the end of the '06 school year are sure to continue to travel far and wide.

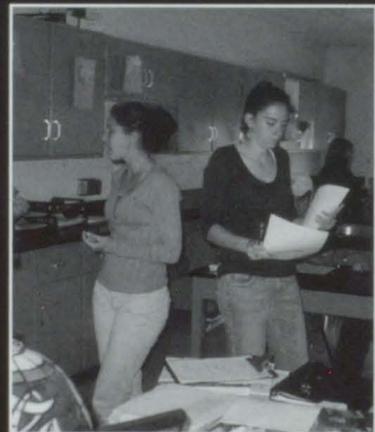

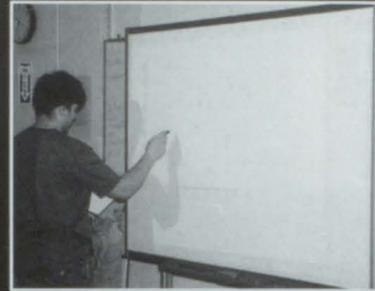

Mr. Hine retired as the High School Principal in June of 2006. Mr. Hine's career began in 1965 when he enrolled in the United States Navy. As a United States Navy photographer he was given the opportunity of traveling to numerous countries including Spain, France, Italy, Greece, and Turkey. Mr. Hine's career in teaching has brought him from a migrant tutor at SUNY Oneonta to a Social Studies teacher, and later a Middle School principal at Unadilla Valley to our current High School Principal for the last seven years. His dedication to education is evident and many thanks are given for his commitment. We wish him the best of luck with his future endeavors!

Mrs. Perlman has been our math AIS teacher for many years at Oxford. At the end of last year, she retired from Oxford High School. She has worked as a teacher for more than thirty years. She majored in biology in Ohio, and began her career as a teacher in that field of study in Long Island. Mrs. Perlman has two children. One is a lawyer in Boston and the other is an architect in San Francisco. She is a very adventurous person, going on long bike trips, such as the one she took from Buffalo to Albany. She has traveled to Turkey and England and served in the Peace Corps. While in retirement, she loves to cook, knit and garden. This of course, is when she is not too busy traveling around the world, or visiting her children.

I love to write, one of my memories is my very first story, I wrote it when I was about four or five. Writing has always been a passion for me because I wrote whenever I was alone; it was all I ever cared about. I never got in trouble in middle school study hall for writing instead of doing homework; it was great because I didn't care about school at the time. My fondest memories are riding on the tractor with my dad when I was really small and my baby rooster Chickers, whom I had since fifth grade. My ambitions are to own my Dad's farm and to be successful in writing if not, I don't know what I want to do.

Tomorrow Never Dies

The 2006 Prom was a beautiful night of being captivated by the idea of an Island Paradise, with long cascading walls of a tent enclosing all those dancing. Palm trees illuminated by yellow lights, and an arch that truly made the notion of an Island Paradise a reality. The night was filled with dancing, laughing, and all things associated with having a wonderful time. Students came together for a night of dancing and it was truly a beautiful eve on an Island Paradise.

She graduated from SUNY Oswego and lived for many years in Ithaca. Now she is lucky to live across the street from the high school in a house that's been in her family since 1922. Ms. Dorsey loves to read and is passionate about the need for all children to have an equal opportunity to achieve. She would like every student to be successful in class and in life.

Reminiscing through the pictures has brought so many wonderful memories. From watching you play the violin in nursery school to playing the different sports throughout high school; soccer, basketball, golf, football.... to performing in the Music Man, Wizard of Oz and You're a Good Man Charlie Brown with sooo much passion. Add to these, the blessing of your missions trip to Morocco. Wow, what adventures you have experienced at such a young age.

"I hope the days come easy and the moments pass slow, and each road leads you where you want to go, and if you're faced with a choice, and you have to choose, I hope you choose the one that means the most to you. And if one door opens to another door closed, I hope you keep on walkin' till you find the window, if it's cold outside, show the world the warmth of your smile,

But more than anything, more than anything, My wish, for you, is that this life becomes all that you want it to, your dreams stay big, your worries stay small, You never need to carry more than you can hold, and while you're out there getting where you're getting to, I hope you know somebody loves you, and wants the same things too, You, this, is my wish.

I hope you never look back, but you never forget, all the ones who love you, and the place you left, I hope you always forgive, and you never forget, and you help somebody every chance you get, Oh, you find God's grace, in every mistake,, and always give more than you take.

But More than anything, Yeah, more than anything, My wish, for you, is that this life becomes all that you want it to, your dreams stay big, your worries stay small, You never need to carry more than you can hold, and while you're out there getting where you're getting to, I hope you know somebody loves you, and wants the same things too, Yeah, this, is my wish."

Jessica Petersen

We're so proud of the lovely, witty, creative, intelligent young woman you've become. The 17 year journey seems to have gone by in a flash now, but it's been amazing!

As new parents, we stared blankly at each other when we brought you, all 8lbs. 13ozs home from the hospital.

What to do, what to do?

Then you began to scream! "Strong Personality!" the doctor said. Your Grandpa Bud said that it was because you couldn't walk or talk yet. He was right. Then our role as nurturers took shape. At age 3 you were making puns (like bialy-gist), creating outstanding drawings, and singing the blues. You learned to read at four, and then you needed books, lots and lots of books. Kindergarten was too easy and you were breed (and we were tired!).

What to do, what to do?

The school advanced you a half year: That was just the beginning of advanced classes. Eventually you met with challenge, and you learned on your own *what to do.* Your interests went from biologist, ecology, dog specialist/ Veterinarian then to... protecting animals and not eating meat?! (It was a logical conclusion.)

What to do, what to do?

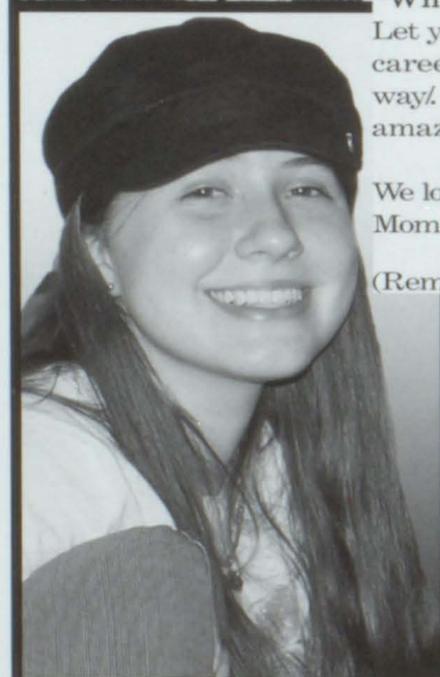

You turned your love of animals into art (-and ate tofu). With art, you will be baring your soul to the world, but you have such great, abundant talent and courage. We know you can do it! (Add singing and acting too.) Didn't I always say to "use your powers for good, not evil"? You have; and now "Class Valedictorian", we are so very proud!

What to do, what to do?

Let you go and do great things with your future and art career: As always, we will support you /every step of the way/. There's a big world out there just waiting for you to amaze them and share your joie de vivre!

We love you with all our heart,
Mom and Dad

Whether it was sitting at the many basketball games, the 6 years of road trips for AAU of watching Field Hockey in the snow, we wouldn't have missed it for the world! You are, a TRUE competitor. Your passion and desire to work hard and play hard are certain qualities that will carry you far in life. You have high expectations of yourself and expect nothing less from teammates. Congratulations Class of 2007

*As our final year comes to an end,
we pause to reflect upon the many memo-
ries*

which have brought us tears and joy.

*We came to this place together
to learn, to grow, and to share.*

*Time and space may separate us
but wherever our pathways take us*

we'll always be the Class of 2007

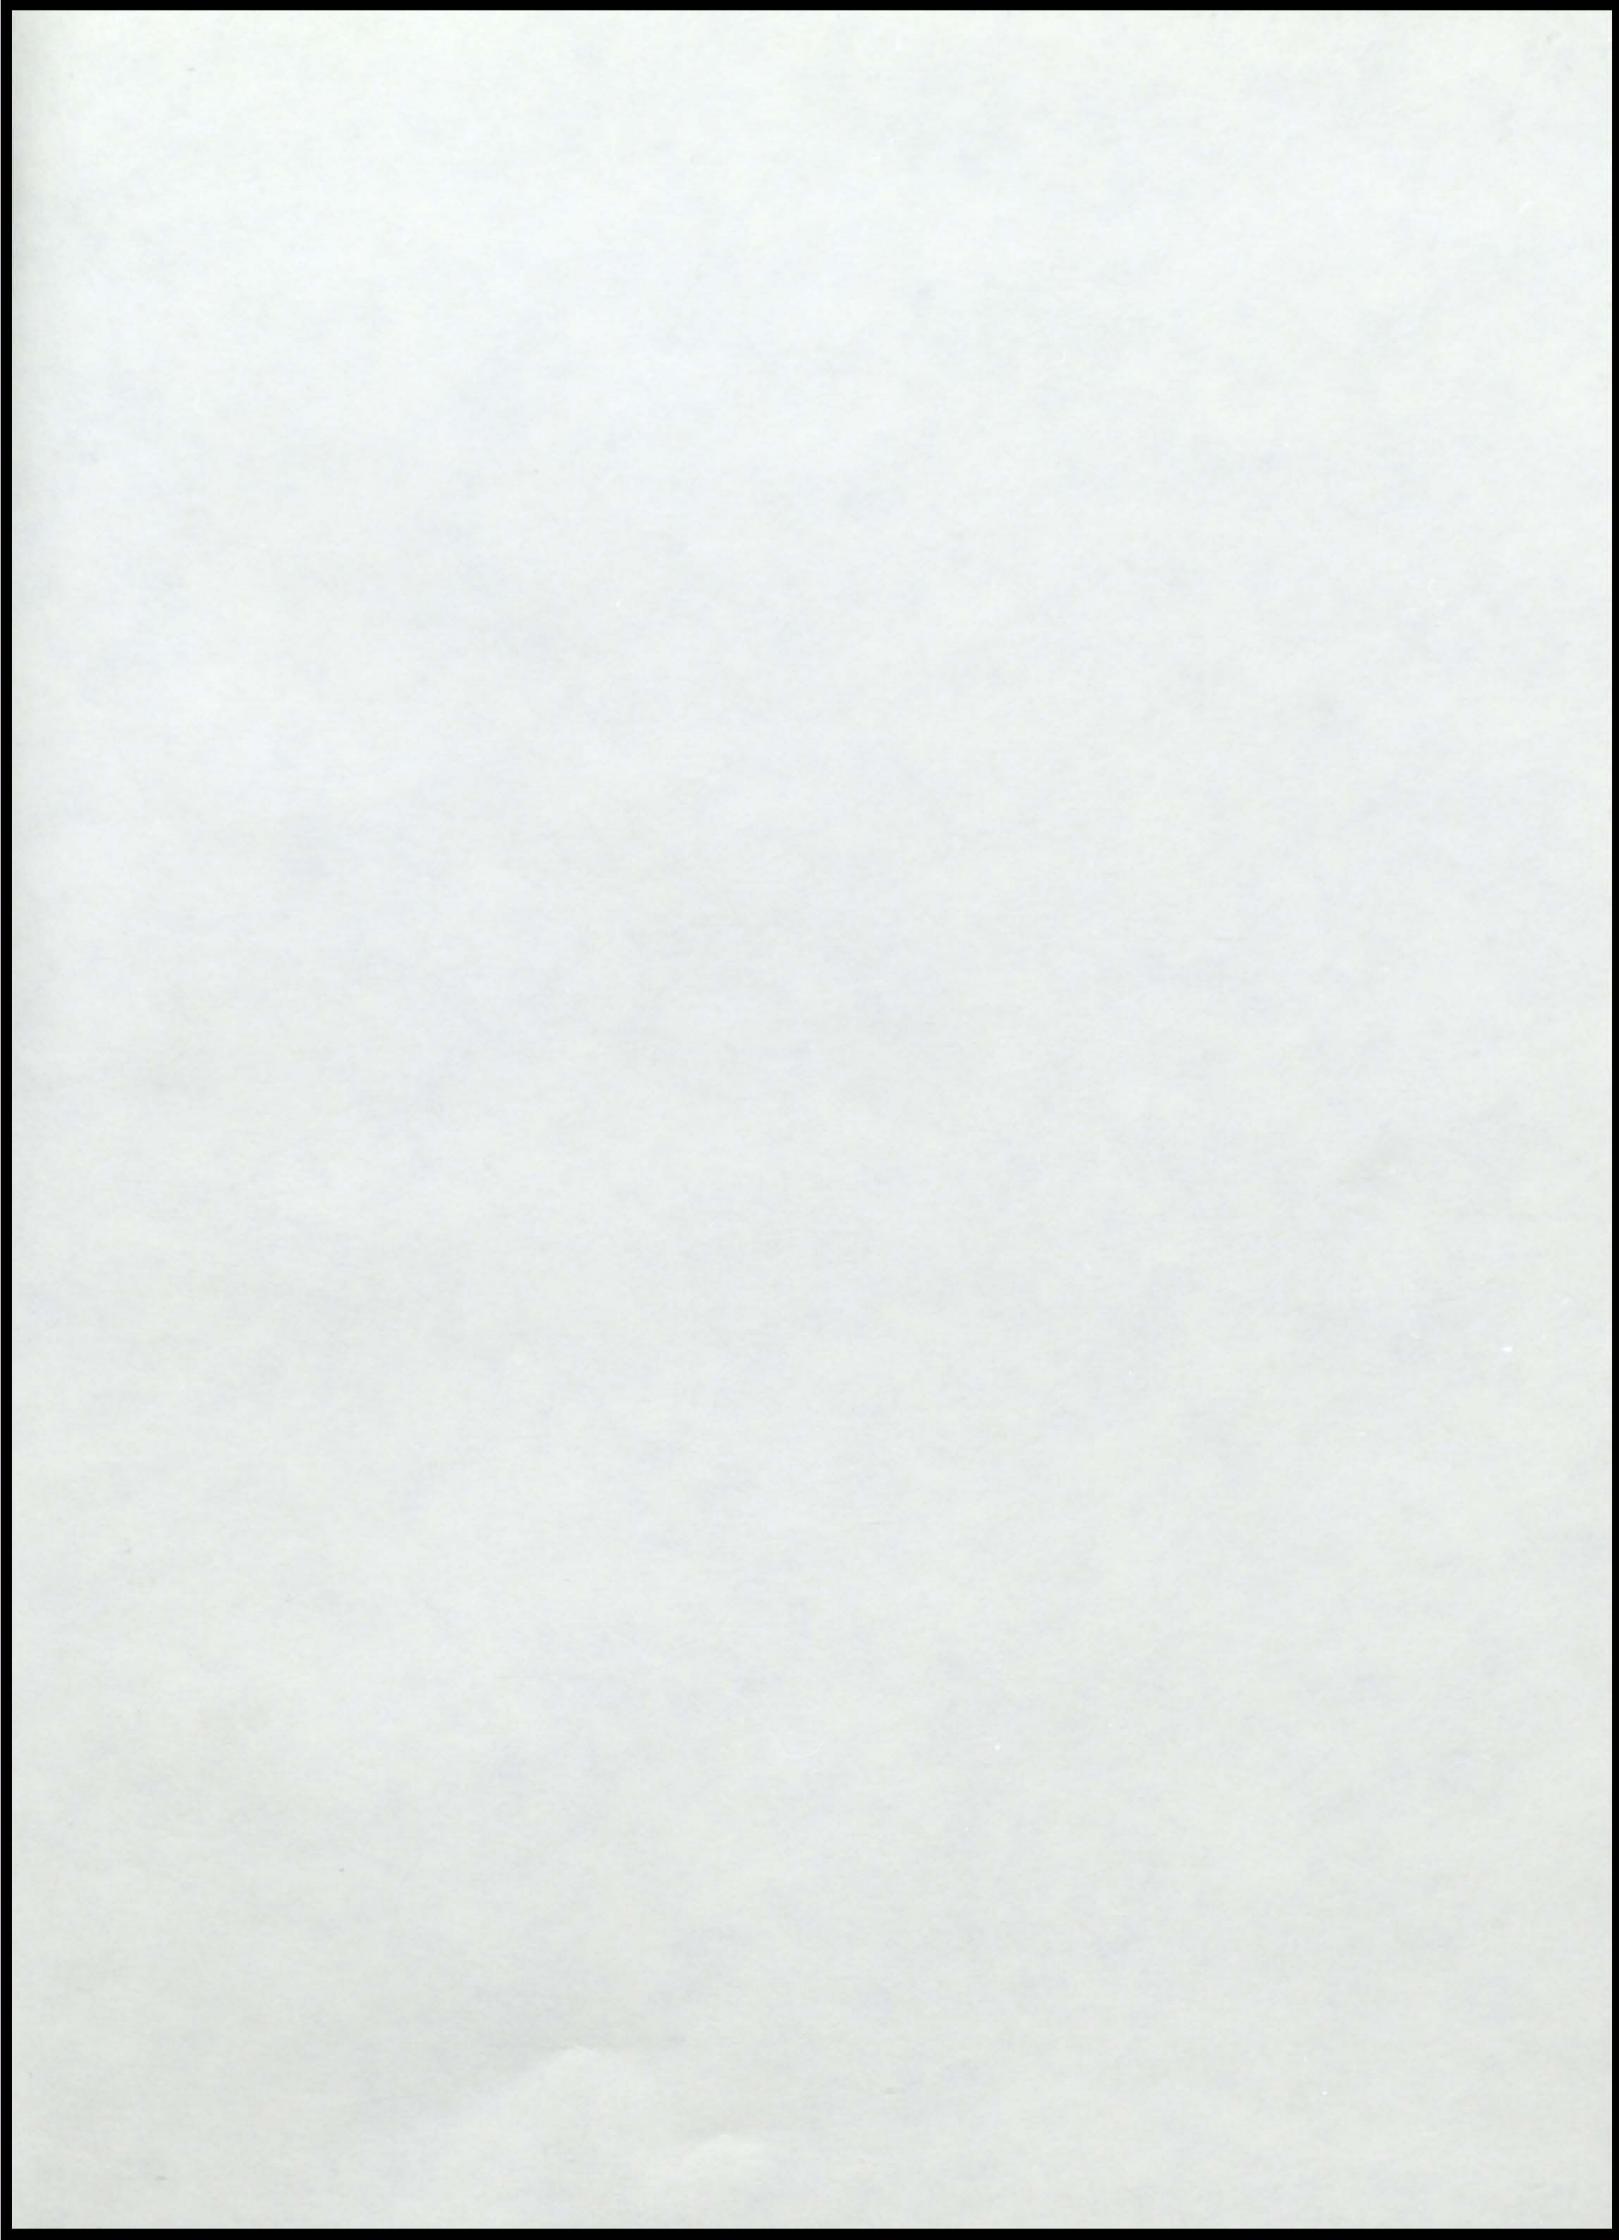

*Each of us has different talents,
different dreams,*

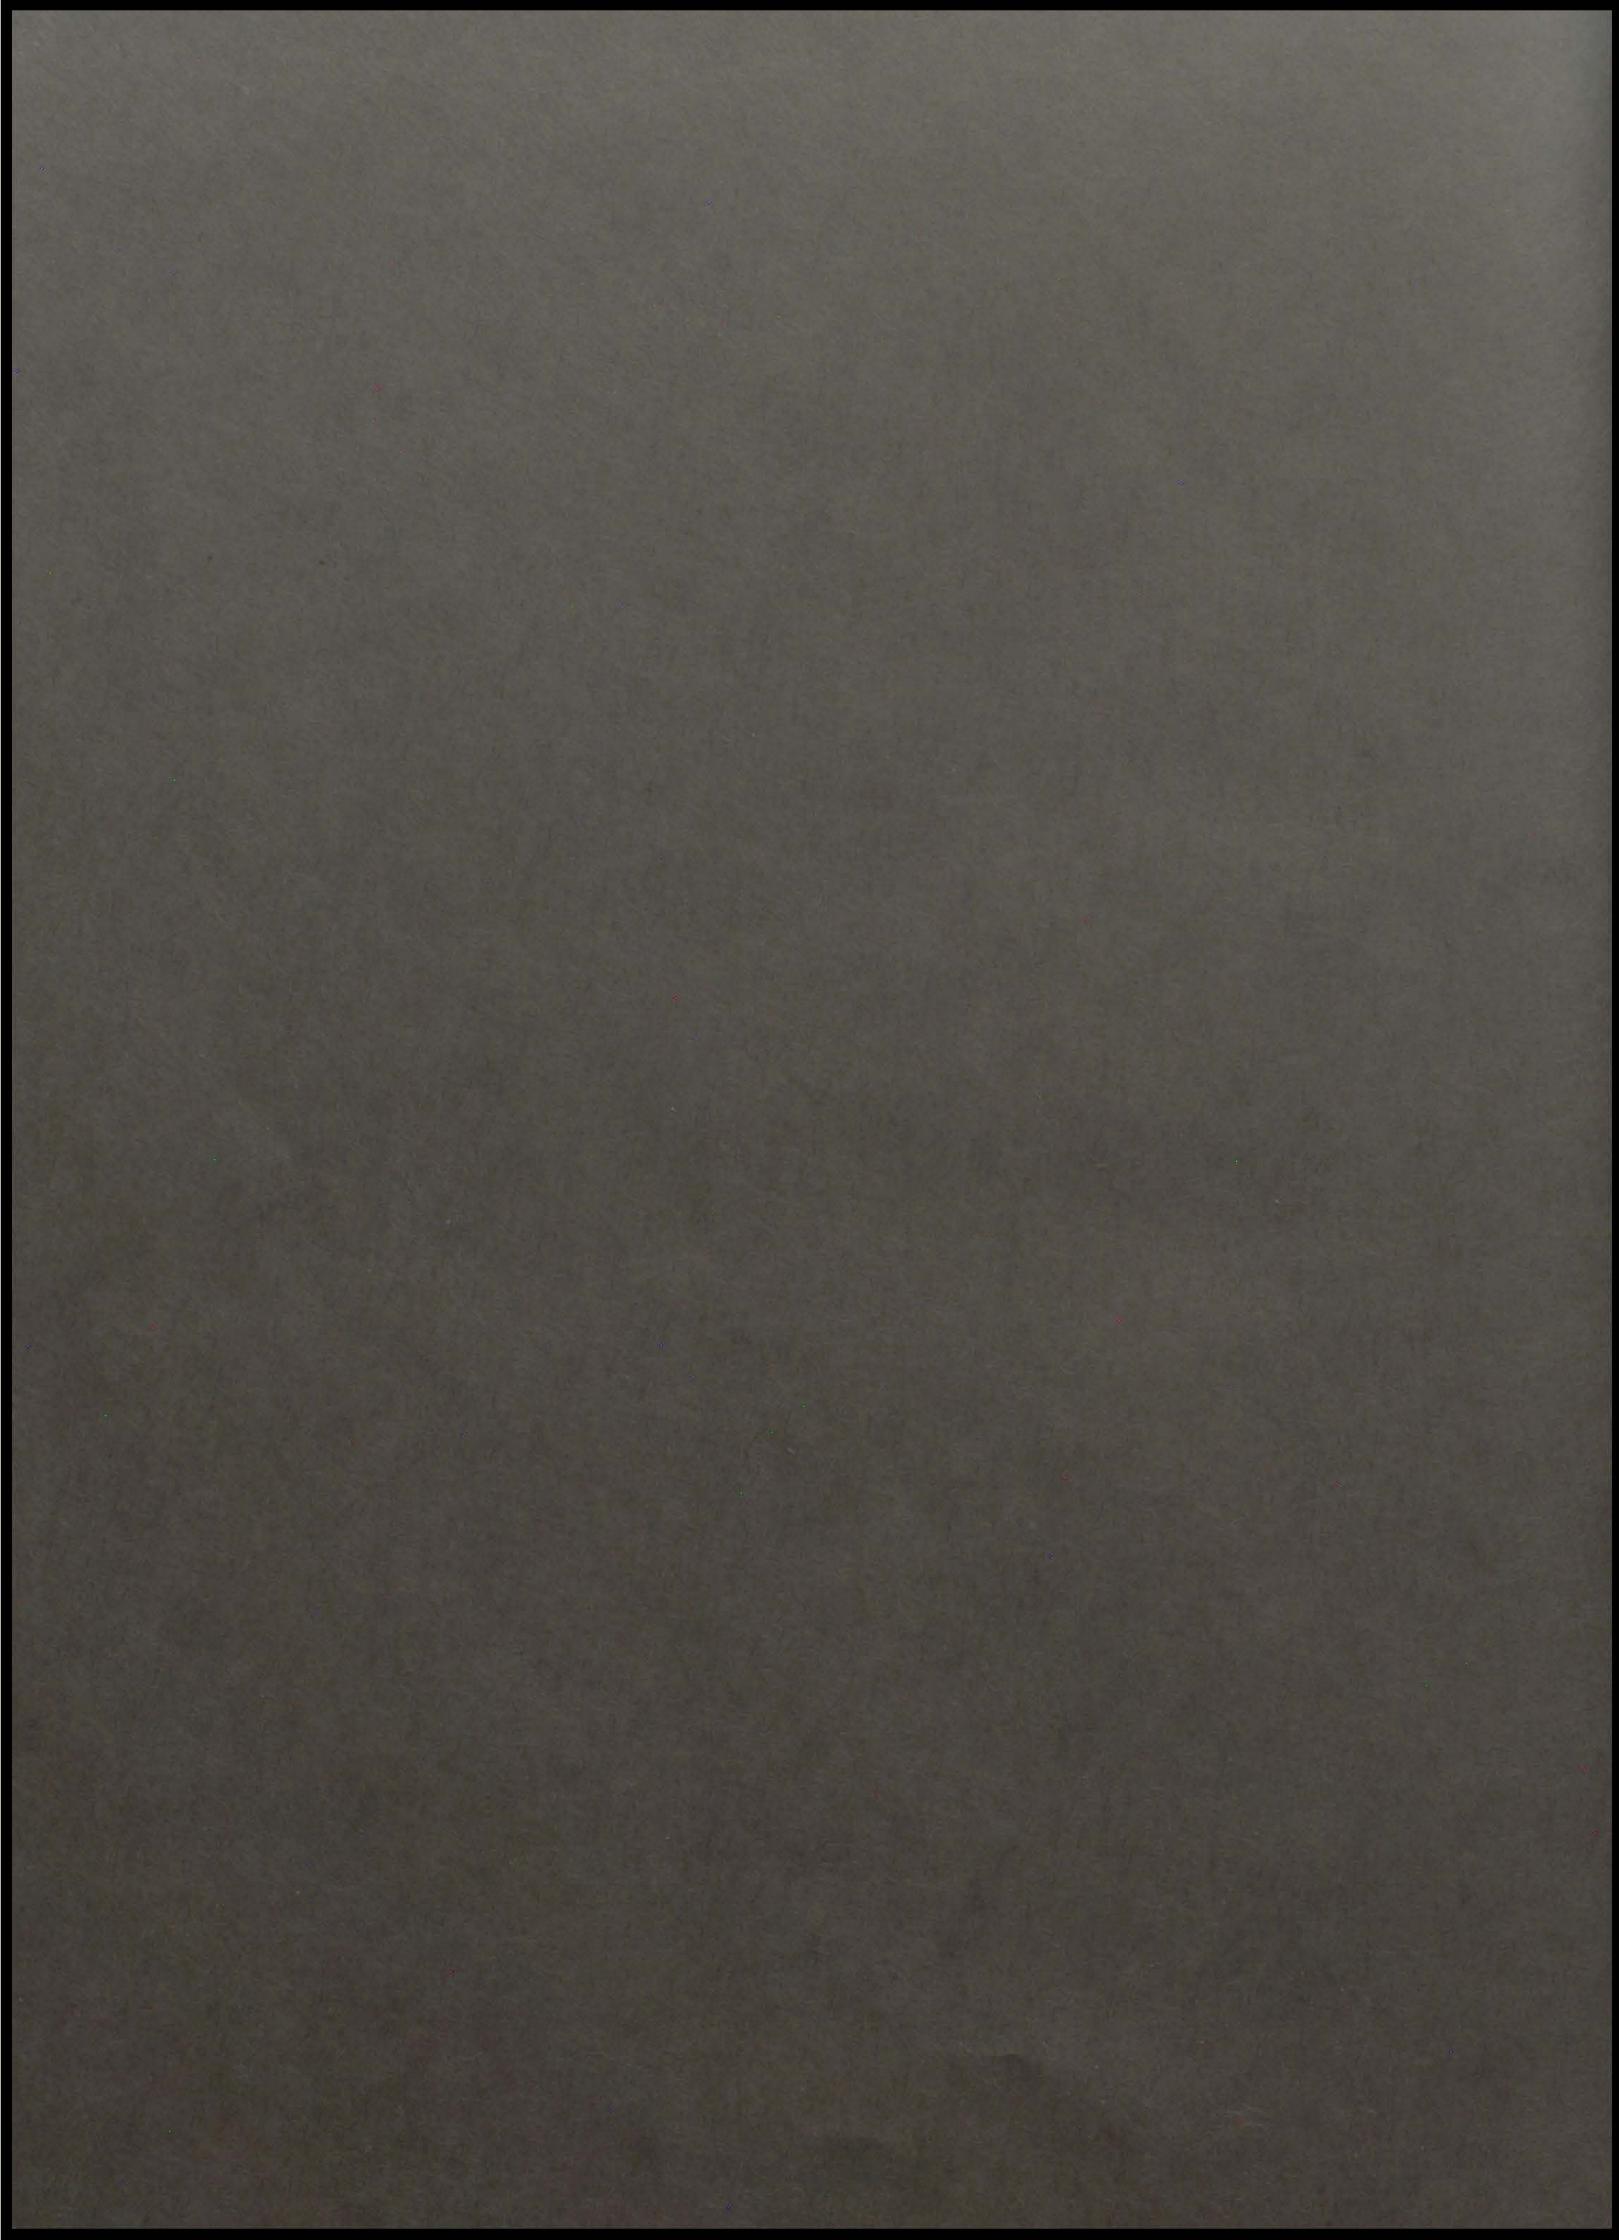

and different destinations.

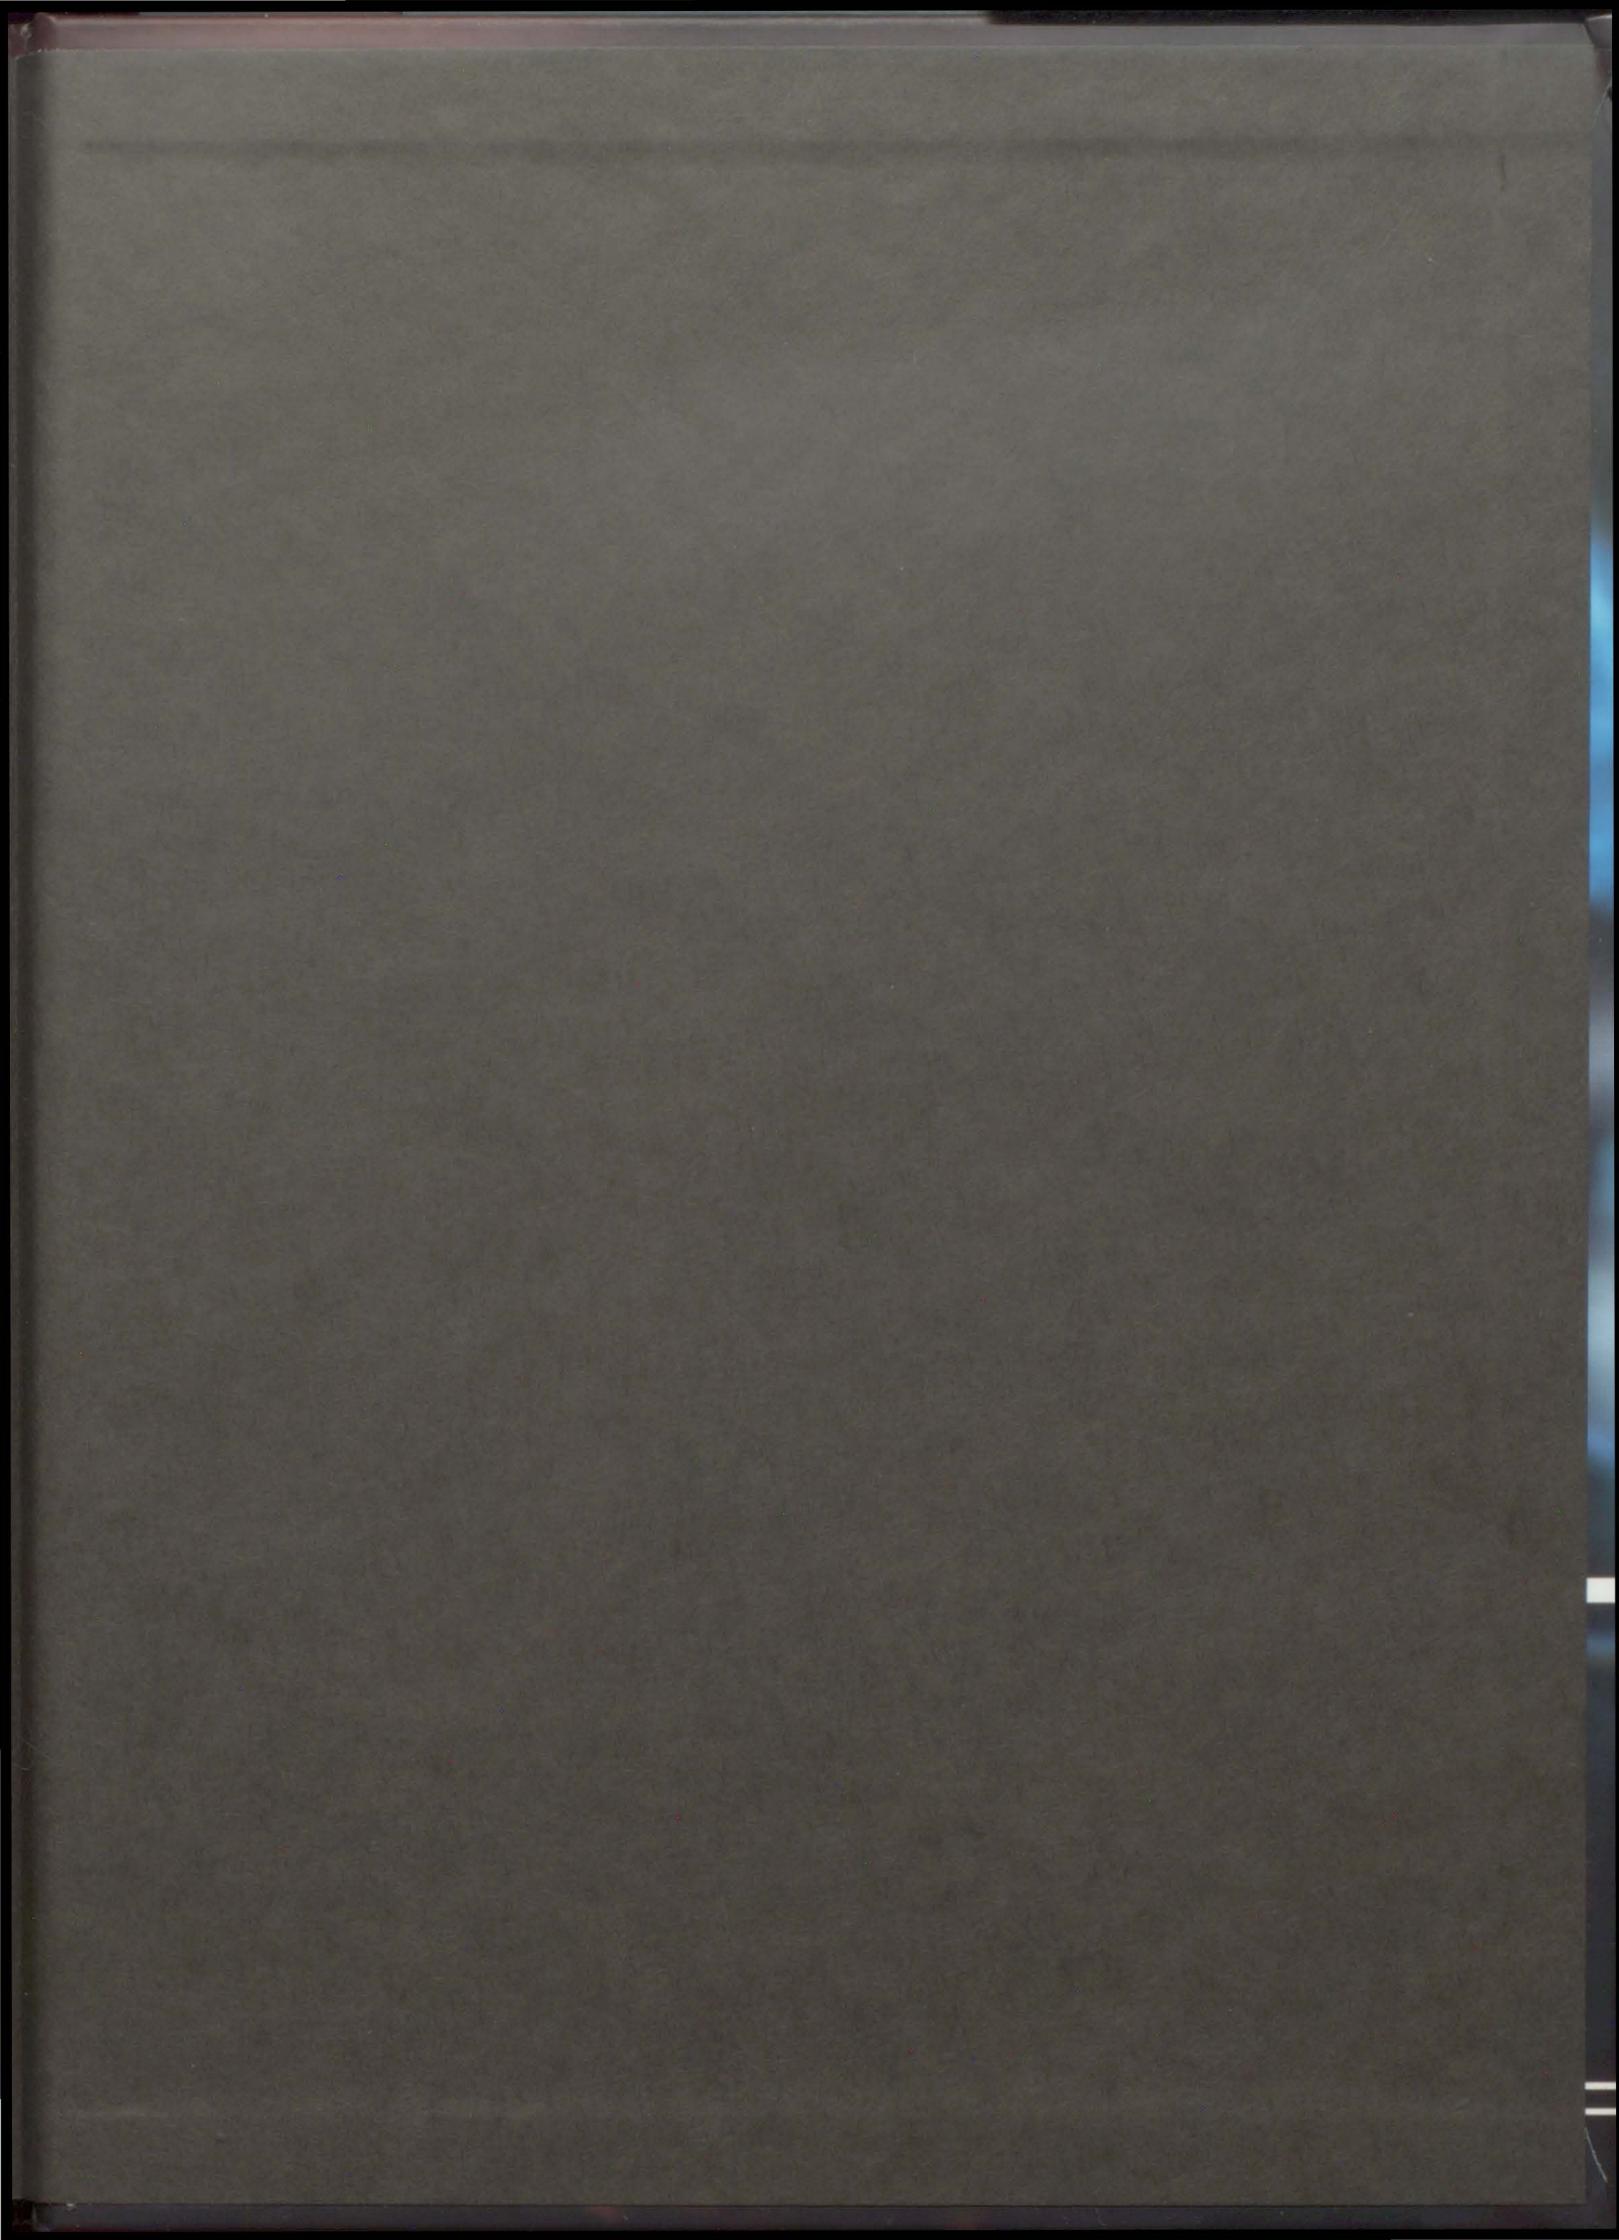

Yet we all have the power

to make a new tomorrow.

Mr. Bankert and the 2006-2007 Student Government
